Harmon Releases Audit of Former Montgomery County Sheriff's Fee Account

FRANKFORT, Ky. – State Auditor Mike Harmon today released the audit of the 2018 financial statement of former Montgomery County Sheriff Fred Shortridge. State law requires the auditor to annually audit the accounts of each county sheriff. In compliance with this law, the auditor issues two sheriff's reports each year: one reporting on the audit of the sheriff's tax account, and the other reporting on the audit of the fee account used to operate the office.

Auditing standards require the auditor's letter to communicate whether the financial statement presents fairly the receipts, disbursements and excess fees of the former Montgomery County Sheriff in accordance with accounting principles generally accepted in the United States of America. The former sheriff's financial statement did not follow this format. However, the former sheriff's financial statement is fairly presented in conformity with the regulatory basis of accounting, which is an acceptable reporting methodology. This reporting methodology is followed for all 120 sheriff audits in Kentucky.

As part of the audit process, the auditor must comment on noncompliance with laws, regulations, contracts, and grants. The auditor must also comment on material weaknesses involving the internal control over financial operations and reporting.

The audit contains the following comment:

The former sheriff's office lacked adequate segregation of duties: The former sheriff lacked adequate segregation of duties over receipts, disbursements, and reconciliation functions. One employee was primarily responsible for posting receipts and disbursements to ledgers, preparing checks, and reconciling the ledgers to the bank.

The office had a limited number of employees in the office that prevented adequate segregation of duties over accounting functions of the office. The lack of adequate segregation of duties increases the risk of undetected errors.

Proper segregation of duties, or the implementation of compensating controls, is essential for providing protection from asset misappropriation and inaccurate financial reporting, while also protecting employees in the normal course of performing their responsibilities. To adequately protect against misappropriation of assets and inaccurate financial reporting, the former sheriff could have implemented compensating controls to offset this internal control deficiency.

We recommend the sheriff's office segregate duties over receipts, disbursements, and reconciliation functions. If segregation of duties is not possible, the sheriff's office should implement and document compensating controls to offset this internal control deficiency.

Former Sheriff's Response: The official did not provide a response.

The sheriff's responsibilities include collecting property taxes, providing law enforcement and performing services for the county fiscal court and courts of justice. The sheriff's office is funded through statutory commissions and fees collected in conjunction with these duties.

The audit report can be found on the [auditor's website](#).
