From the 75% account disbursements ledger select operating expenditures and test for documentation, allowability, classification, proper amounts, evidence of alteration, endorsement, and possibility of duplicate payment. Include in this test; transactions in material accounts

- \* Transactions in material accounts that have not been previously tested.
- \* Individually significant dollar items, and unusual items  
If the Sheriff uses a credit card, include some of those expenditures. Be sure the Sheriff has copies of back up receipts, not just the statement itself.

Do not include payroll items, as this is addressed in a separate test.
